Lucena City, Quezon
Philippines

Software Developer / System Programmer with 6+ years of experience in software and web development, maintaining and modernizing business-critical systems from legacy .NET applications to responsive front-end web development. Skilled in troubleshooting across the full stack — database, application logic, and UI — and working directly with users to turn requirements into practical system improvements.

Work Experience

System Programmer · RPI

February 2025 – Present

- Develop, maintain, and enhance legacy desktop and web-based business applications built on .NET Framework 4.5 (C#, VB.NET, SQL Server, stored procedures).
- Modify and improve existing business systems based on operational requirements — implementing new features, fixing issues, and improving workflows.
- Modernized legacy web applications by improving HTML, CSS, JavaScript, and Bootstrap for better responsiveness and user experience across devices.
- Maintain and support 12+ business-critical systems spanning pawnshop operations and financial reporting — including the Hotel Rosita Official Website & EasyReg System, Raquel Pawnshop Dashboard & Money Transfer System, Cash Monitoring Report System, DCPR System, and CLR Financing System, among others.
- Troubleshoot application, database, and system issues by analyzing existing code, stored procedures, and user-reported problems.
- Work directly with users to understand system requirements, investigate issues, and implement improvements.
- Manage web hosting and SSL infrastructure via Namecheap and cPanel.

Front-end Web Developer · Private Contractor

May 2023 – Nov 2024 (1 year and 6 months)

- Performed website updates, modifications, and e-commerce development using AngularJS.
- Applied responsive design principles for compatibility across mobile, tablet, and desktop.
- Tested and optimized websites for usability, performance, accessibility, and browser compatibility.
- Improved website performance through image compression, lazy loading, and resource optimization.

Junior Web Developer · Guavatek

January 2022 – May 2023 (1 year and 4 months)

- Developed and maintained client and internal websites using HTML, CSS, JavaScript, and AngularJS.
- Created responsive, user-friendly interfaces and modified website features based on client and project requirements.
- Set up and maintained domains and SSL certificates (Namecheap, cPanel); tested across browsers and devices, collaborating with developers and clients to resolve technical issues.

IT & Web Development Support · Rodriguez Property Ventures & Dev't Corp.

November 2020 – January 2022 (1 year and 2 months)

- Developed and maintained the company's official website, implementing content updates, layout modifications, and functionality improvements based on business requirements.
- Developed an Excel-based inventory management system for tracking internal company assets, tools, fuel, gas, containers, and other operational resources.
- Created technical drafts and layouts using AutoCAD and SketchUp to support the company's subdivision and property development projects.
- Provided software and technical support for internal business operations, assisting with troubleshooting and resolving day-to-day technical issues.

Web Developer Intern · Quadfinity Solution

July 2018 – January 2019 (6 months)

- Created and modified websites using manual coding and web development tools.
- Assisted in designing and developing responsive and user-friendly websites.
- Modified website layouts, navigation, and functionality based on project requirements.
- Assisted with testing and debugging web applications to ensure proper functionality and browser compatibility.

Technical Skills

Programming & Development

- C#
- VB.NET
- .NET Framework
- HTML5
- CSS3
- JavaScript
- AngularJS
- Bootstrap
- Responsive Web Design
- Legacy Web Application Modernization
- UI/UX Improvement
- Cross-Browser Compatibility
- Web Application Development

Database & Reporting

- Microsoft SQL Server / T-SQL
- Stored Procedures
- Database Maintenance
- Data Access / Helper Classes
- RDLC Reports

Web Development

- Responsive Web Design
- Legacy Web Application Modernization
- UI/UX Improvement
- Cross-Browser Compatibility
- Website Maintenance
- Web Application Development

Hosting & Deployment

- IIS
- Namecheap
- cPanel
- SSL / Domain Management
- Website Maintenance

Development Tools

- Visual Studio
- Visual Studio Code
- Git / GitHub

Other Tools

- Microsoft Office
- Google Sheets
- Photoshop
- Canva
- Notion
- Autocad
- SketchUp

Education

Southern Luzon State University

Bachelor of Science, major in Computer Technology

Certification & Seminars Attended

- National Certificate III in 3D Animation – 2018
- Android Programming Seminar – June 2018
- National Certificate II in Computer Systems Servicing – 2017
- Adobe Photoshop Seminar – February 2016

Professional Strength

- Problem Solving & Troubleshooting
- System Analysis
- Adaptability
- Attention to Detail
- Communication
- Team Collaboration
- Continuous Learning
- Independent Work
